INTERNATIONAL SEARCHES ORT 13 DEC LUNA

International application No. International filing date (day/month/year) PCT/CH 03/00379 12/06/2003 14/06/2002 Applicant	Applicant's or agent's file reference	FOR FURTHER see Notification	of Transmittal of International Search Report
Applicant MILLENIUM BIOLOGIX AG This international Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This International Search Report has been prepared by this International Bureau. This International Search Report consists of a total of	06855PC	ACTION	/220) as well as, where applicable, item 5 below.
This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmixed to the International Bureau. This International Search Report consists of a total of	nternational application No.	International filing date (day/month/year)	(Earliest) Priority Date (day/month/year)
Applicant MILLENIUM BIOLOGIX AG This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmited to the International Bureau. This International Search Report consists of a total of 5 sheets. It is also accompanied by a copy of each prior art document cited in this report. 1. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.	PCT/CH 03/00379	12/06/2003	14/06/2002

because the applicant failed to suggest a figure.	as suggested by the apr	plicant.	X None of the figures.
because this figure better characterizes the invention.	because the applicant fa	ailed to suggest a figure.	
	because this figure bettr	er characterizes the invention.	

Box I Observation	ons where certain claims were found unsearchable (Continuation of item 1 of first sheet)
This International Sea	arch Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. Claims Nos.: because the	: y relate to subject matter not required to be searched by this Authority, namely:
2. Claims Nos.: because they an extent tha	relate to parts of the International Application that do not comply with the prescribed requirements to such t no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they	are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box II Observatio	ns where unity of invention is lacking (Continuation of item 2 of first sheet)
This International Sear	ching Authority found multiple inventions in this international application, as follows:
see addi	tional sheet
1. As all required searchable cla	l additional search fees were timely paid by the applicant, this International Search Report covers all aims.
2. As all searcha of any addition	ble claims could be searched without effort justifying an additional fee, this Authority did not invite payment nal fee.
3. As only some covers only the	of the required additional search fees were timely paid by the applicant, this International Search Report ose claims for which fees were paid, specifically claims Nos.:
4. No required ad restricted to the	Iditional search fees were timely paid by the applicant. Consequently, this International Search Report is e invention first mentioned in the claims; it is covered by claims Nos.:
1-12	
Remark on Protest	The additional search fees were accompanied by the applicant's protest.
	No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-12

Invention 1

A method for the identification of tissue/cell specific marker genes; a method for the determination of a particular disease state or developmental status or the physiological potential of cell/tissue; and a method for the determination of characteristic gene expression profiles for clinical use

2. claims: 13-29 (all partially)

Inventions 2-468

An array comprising a human chondrocyte specific gene; a kit comprising it; and the use of said gene or kit for in vitro diagnostic of mammals, in particular humans,

wherein said human chondrocyte specific gene is that corresponding to the Pubmed accession numbers listed in table II:

-for invention 2: AA283693

-for invention 3: AA845156

-for inventions 4-468: R52548-AA504477
